

Appl. No. 10/623,631

Amdt. Dated May 13, 2004

Reply to Office action of March 25, 2004, "Notice to File Missing Parts of Nonprovisional Application"

REMARKS/ARGUMENTS

With this submission, we respond to a notice to file missing parts of a nonprovisional application.

We were advised that we must resubmit the specification in a double line-spaced format, and also must submit an "abstract" on a separate sheet, and with this submission we comply with that request. Extremely minimal changes have been made, mostly editorial, and none substantive in the specification itself, nor in the claims.

Also, rather than accept a later filing date, we have struck reference to a wrongly-supplied CD-ROM.

Respectfully submitted,

A handwritten signature in black ink, reading "Thomas James Hardman Jr.", written over a horizontal line.
